

## The Animal Experiments Inspectorate's mini-seminar Are there alternatives to antibodies?

Tuesday the 21. April 2020

### Program

**13.00 – 13.15**

**Leif R. Lund, The Animal Experiments Inspectorate**  
Welcome and short introduction

**13.15 – 13.45**

**Mikkel-Ole Skjødt, Rigshospitalet**  
44 years with monoclonal antibodies: status in design, development & applications

**13.45 – 14.15**

**Theresa Bak-Thomsen, Novo Nordisk**  
Antibody discovery at Novo Nordisk  
- in vivo and in vitro antibody discovery platforms complement each other in development of therapeutic antibodies

**14.15-14.45**

**Stefan Dübel, Technische Universität Braunschweig**  
Sequence defined non-animal-derived antibodies as replacements

**14.45 – 15.15 Coffee break**

**15.15 – 16.30: Panel discussion**

Moderator Axel Kornerup Hansen, Mikkel-Ole Skjødt, Theresa Bak-Thomsen and Stefan Dübel. Peter Bie and Rosemary Svendsen will participate from the Animal Experimentation Council

### Time and place

The seminar is Tuesday the 21. April 2020  
University of Copenhagen, Frederiksberg Campus  
Bülowsvej 17 (Festauditoriet),  
1870 Frederiksberg C

**Registration deadline: 14. April 2020**
